Murdo Macritchie in the Roads departments says that Coll and Vatisker roads have been spray and chipped, too expensive to do anything other than main roads however, agreed that potholes would be done on unadopted roads.

Members agreed to write a letter to Technical Services regarding various issues including the overgrown grass beside pavements through the villages as it's a road safety issue, fixing the bollards on pavements, flashing lights/speed signs on the main road when school children are starting and finishing school.

Coastal erosion is getting worse, members agreed that this work could possibly get external funding. A letter of support is to be written to the Stornoway Trust regarding this.
